PLAY THIS SHOW MARCH 16 THROUGH APRIL 19, 2015

Good day to you, fellow Chuck E. Cheesers! We are happy to bring you the second show of 2015! We have so much *fun* putting together some of our *favorite* songs. We hope you and your guests have a lot of *fun* watching and listening to them! This new show includes some awesome, popular music videos from artists Taylor Swift, OK Go, Kelly Clarkson and Pharrell Williams! Doesn't that make you "Happy?" See what I did there?

Also included are new, hilarious songs and skits from Josh & The Jamtones. Speaking of Josh & The Jamtones, don't forget to sell the Josh & The Jamtones DVD movie, "Bear Hunt," at your merchandise counter for $15. If you have questions regarding this, contact Ticye Lyons at tlyons@cecentertainment.com or (972) 258-4222.

We have been hearing great things about your "Do The Chuck E." performances and ticket splashes. Keep up the good work! Kids love doing this dance with Chuck. And to keep things fresh, we have updated the Chuck E. Live countdown.

Finally, as you may have noticed, the 2015 show release schedule is a bit different than in years past. So you know what to expect, below is the show release schedule for the remainder of 2015:

Show 2 – Mar. 16 through Apr. 19 (current show)

Show 3 – Apr. 20 through Jun. 14

Show 4 – Jun. 15 through Aug. 9

Show 5 – Aug. 10 through Sep. 27

Show 6 – Sep. 28 through Nov. 1

Show 7 – Nov. 2 through Dec. 27

AUDIO STANDARDS

The enclosed show will have a volume level difference of 10 dBs between the Live/Birthday shows and the regular show. Below are instructions to your Technical Managers on how to properly set and calibrate the amps for this new setting. Once the amps have been set, it is imperative that amps are not adjusted.

Step 1: Make sure you have the proper sound meter and it is set to weight c and reaction slow. This must be done in the morning when there is no ambient noise.

Step 2: For Studio C, have the control panel set at 100%. For all other shows, have the volume adjustment set to its highest level.

Step 3: On the Live/Birthday shows, adjust your amp until your sound meter reads about 90 dBs.

Step 4: Confirm your regular show is about 80 dBs in the show room and game room.

Step 5: Once you have confirmed the settings, remove amp knobs if possible. If you cannot remove knobs then find a way to make it difficult to randomly adjust the knobs. If none of the above can be done, then mark the proper volume level on your amp.

Step 6: Unplug the sense microphone(s) from the back of the Symetrix.

Step 7: On the next directional, go over the volume settings with the managers.

With the new settings, the loudest the show will go is about 90 dBs. If you have any questions, please get in contact with your DT or RT.
